

Your Invoice-to-Pay Automation Value Calculator Results

Based on the data you entered, by implementing MineralTree Invoice-to-Pay AP Automation, you should expect to see:

Invoice capture, route, approve and post	Capture early payment discounts	Payment execution	Rebates from virtual card payments
\$3,000	\$12	\$4,258	\$4

Centralize Accounts Payable

MineralTree invoice and payment automation simplifies your current invoice processing workflows and controls while integrating with your accounting system and bank. By centralizing the invoice to payment process into four easy steps, businesses have greater control and visibility into outgoing cashflow.

Improve Security and Reduce Risk

MineralTree Invoice-to-Pay offers two-factor authentication, payment limits, bank positive pay, and two-step payment to ensure the security of your payments and financial data. In addition, MineralTree provides fraud loss protection up to \$100,000 per year.

Increase Efficiency

By automating processes that are typically manual such as printing checks, entering invoice data and acquiring approvals, efficiencies are improved by greater than 50%. Combine that with the ability to approve and authorize payments directly from your mobile device, and AP has never been easier.

Build Better Vendor Relationships

With MineralTree, your business can pay vendors via multiple payment rails including ACH, virtual card, or check. Having more payment options gives you the ability to ask your vendors "What is your preferred payment method?" Plus, automated, scheduled payments ensure you are never late or miss a discount again.

Ensure Consistency & Accurate Data

Manual processes are often prone to error. By adopting automation, you are ensuring accuracy with data capture technologies and advanced scheduling. Automate invoice data extraction, automatically routing invoices to the appropriate approver, and the outgoing payments.

MineralTree provides the easiest to use Accounts Payable and Payment Automation solutions for finance professionals at growing organizations. If you are interested in learning more, please contact us at sales@mineraltree.com, or visit us at www.mineraltree.com.
