Cash Rebates =

Future Automated Accounts Payable Cost

- Subscription Cost: All annual costs associated with the product including: integration to accounting system, bank, and credit cards, automated invoice data capture, coding, and approval workflows, sending check and ACH payments, unlimited users, unlimited document storage, and \$100,000 guarantee against online fraud.
- Remaining Processing Costs After Automation: Assumes a 60% savings on invoice processing, which is the average seen by current customers. This factors in all remaining costs to process AP.
- Cash Rebates: Estimated rebate (.5%) is based on moving 10% of total accounts payable spend to SilverPay, MineralTree's electronic payment network.

It is clear that automating accounts payable will have a measured impact on your business. The above results provide high level justification, but we'd welcome the opportunity to work with you to understand your specific needs and build the case for why now is the right time to automate your Accounts Payable process.
