Tax Returns ROI Calculator Full Results

Current Spend (\$) Avalara Investment (\$)

\$36

\$37

Savings by switching to Avalara

35%

\$34

Here's the Math:

• Your Current Annual Costs = Hours Spent Each Month on Filing Returns x Hourly Labor Costs x 12 Months

How does Avalara pricing work?

· Avalara charges a flat rate based on the number of returns you file. The more you file, the more savings you receive!
